

CARBOFIRE YP 2079 W CERAMIC ALUMINA BELTS

DEMANDING APPLICATIONS:

High-pressure operations, and grinding stainless and hard-to-grind alloys

LIGHT TO MEDIUM BLENDING AND LEVELING JOBS

37%+ improvement in life over competitive products at an economical price; excellent value

MADE-TO-ORDER AVAILABILITY

Belts:	Narrow, wide, and sectional
Widths:	1/8" to 52"; available with wider widths as sectional belts
Grit Range:	24 – 80
Lead-Time:	5 days

FEATURES

- Premium ceramic and zirconia alumina blended abrasive
- More elongated-shaped grain with extreme point endurance
- New resin bond system
- Heavy-duty Y-weight polyester backing
- Available in 24 – 80 grit range

BENEFITS

- 37%+ improvement in life over competitive products
- 50% to 200% faster cut rates maximize productivity
- Self-sharpening for consistent cut
- Works well on Inconel, aluminum, brass, bronze, chrome, carbon steel, stainless, and titanium
- Improved grain retention and life over competitive products
- Broad utility; from light- to heavy-pressure, demanding applications
- Durable; long life; waterproof
- Reduced edge wear
- Meet stock removal to finishing requirements

BEST

For most abrasive applications, Carborundum offers up to three product performance levels – GOOD, BETTER and BEST. Carbofire YP 2079 W ceramic alumina belts are in the BEST tier. They represent products that are unmatched in the industry and provide the lowest total cost for the application.
